In connection with the year of public speaking, every student in the class is given an opportunity to be an author of one's own talents.

1. You can write a motivational article or poem or drawing.
 - If you are writing an article, it should be about what you want to become in life, your dream or anything that you find good in your school. Handwriting must be at your best.
 - If you are writing a poem, it should be about your school or family.
 - If you are drawing a picture, it should be of your house or your classroom or any inspirational person's face.
2. Your write up/poem/drawing must be on A4 size white paper. You must present it at your best. Only one side of the A4 size paper must be used, the other side must be blank. Paper must be very clean, neat and not scribbled or untidy. Write your name, class and division. A sample will be shown on your class screen after the exam.
3. The papers will be compiled and bound it and it will be like a book, called "My Class Magazine". The write-ups must be handwritten. Class Magazine is for Classes III to IX. Don't disturb your teachers' asking doubts on this. Read the instructions and do it by yourself.
