

# ST. FRANCIS HIGH SCHOOL

RECOGNISED BY THE GOVERNMENT OF KARNATAKA

Circular 21, 2024 - 25

Hello My dear Parents,

JUNIOR ORATOR - PHASE II

September 24, 2024

Greetings and Love to all of you!

In continuation of my circular addressed to you dated September 20, 2024, please be informed that the school has taken a decision to conduct the "JUNIOR ORATOR - PHASE II" with the promise of the students that they will perform better than the Junior Orator - Phase I.

- Working in the school for the past 12 years, has enabled me to know how valuable "Public Speaking" is for the children. The best period of life when students can become confident individuals, is the primary school years (ages : 5 - 11).
- Primary school lays the foundation for future academic and personal growth. Students are eager to learn and explore, fostering a sense of wonder and excitement during their primary school years. Therefore, this is the right time to train them.
- Interacting with peers and teachers, children develop social skills and communication skills in primary school years. We can't expect them much when they move to the middle school and high school.
- Encouragement and praise from teachers and parents boost their self-esteem and self-confidence - so given them opportunities now and praise them.
- Public speaking programs in the school are confidence building strategies for primary school students.

ATTEND THE PUBLIC SPEAKING SESSION OF YOUR CHILD ONCE AGAIN AND SEE THE DIFFERENCE.

Brother Sanil Tharayil  
Principal

Parents can choose any topic of your concern at the interest of your child. The duration for the speech is ONE and HALF minutes (90 seconds only). Give rehearsals and practices to your child during the Dasara Vacation. Ensure that your child delivers the speech at his/her best in the school. You will be the audience for your child. The class will be divided into 04 groups. You should come to school only on the day when your child performs.

Contd...

Don't select difficult topics or choose hard words beyond the child's level. Don't pressurize the child to memorize beyond his/her capacity. The rest you know everything - as a parent. Make sure that the children do better than their first attempt - MY DREAM.

JUNIOR ORATOR - PHASE II will be organized in the school on Friday and Saturday, October 18<sup>th</sup> and 19<sup>th</sup>. The group list and the names with timing will be informed you on Tuesday, October 15<sup>th</sup>. Wishing you all the best for the homework during your Dasara Vacation.

By nurturing confidence in primary students, we set them up for success in academics, social relationships, and beyond!
